

# KIZITO WOMEN'S FOUNDATION

**Date: 17/04/2018**

This is Kizito Womens foundation (KWF). On Wed, Mar 14, 2018, KWF received funding from wheels4life which opened up the year 2018. The funding enabled us to purchase 35 bikes for households that are headed by women. women will use the bikes for transportation of their little agricultural products to market to get money for their children's school fees and also be able to get household needs like paraffin, salt, medical care etc....

"I have received this bike at a time when it is most needed."said NAMATOVU. Namatovu is a peasant who grows sweet potatoes which she sells in markets to earn school fees for her children. She was very happy to receive a bike which will make her transport to markets easy.

These are children of Aminah a small business owner. These girls received the bike on behalf of their mother. As their mother will use the bike to run her small banana business, the children will use the bike to run to school.

This is NAKATO JOSEPHINE.

She is a single mother and takes care of six children and three grandchildren. She is a peasant who sells the surplus to nearby market to get school fees for her children. She was one of the lucky beneficiaries of the bikes in 2018 phase one.

NAMIRO JANE is one of the peasants who sell the surplus of their produce such as cabbages, avo cado, green pepper, some of them sell charcoal, sugar canes etc...

The bike is going to boost her business and she dreams of multiplying the earnings from her sales. The bike she received will be shared by her fellow women on different market days to transport agricultural goods.

NAKAYENGA PAULINE is a single mother with three children. She has been struggling to make ends meet. Now that she has a bike, her life and that of her children will improve greatly. She will not only use the bike to transport agricultural goods to market but also use it as a means of transport for her children to school, to health centers for medical services as well as use it to fetch water from which she will earn additional income.

IMMACULATE NAMUTEBI is from Bukoto village. The bike she received will mainly be used as an ambulance for her family members and the neighbors. IMMACULATE, a sixty year old woman was excited to receive a bike in her house she told that her children and grandchildren will use the bike

to go to school, fetch water for their animals as well as use it to transport the agricultural surplus to market etc..
